

Chicago Gets First Day Of Polish Stamp

A.P.S. Left Out On A Limb When Milwaukee Deserts Adopted Baby No One Wanted The Convention

At the Cleveland Convention of the American Philatelic Society, held last August, bidders for the 1943 Convention of the Society were so few and far between that the committee on next convention had but one offer to present for consideration and of course with but one offer, where there is usually a number of cities from which to choose, it was an easy matter for the committee to present this offer and believe the matter was settled and it was in so far as the Society was concerned, but no so the genial host to be. The only offer to take the 1943 convention came from Milwaukee, which although famous for certain other things

will now become famous in Philatelic annals as the city that Deserter the Baby which it so eagerly adopted at Cleveland.

The invitation which was extended on behalf of the Milwaukee Philatelic Society, the Governor, The Mayor and the other civic and commercial bodies has now been scrapped as a worthless bit of paper.

We are as yet unaware as to what reasons if any, have been given for this action, but the announcement is definite and the American Philatelic Society is out on a limb and will have to do some quick scrambling to find a place to light for its 1943 love feast.

As yet there have been no definite restrictions on travel and several large conventions are to be held, notably that of the American Legion. It would be improbable that many more than 50 to 75 persons might travel to Milwaukee and certainly there would be no reason which would make such a small convention objectionable.

Milwaukee will of course come forth at some time or other in its own defense and state some reason as to why it has at this late date, backed down on its convention invitation.

To our way of thinking one of the most important points is the fact that Milwaukee was the only city which extended an invitation. Can it be that collectors are getting fed up on A. P. S. politics and politicians. It is true that the society does maintain a membership hovering around the five

thousand mark which some will point to as evidence of the worth of the society, but since membership in the A. P. S. is accepted throughout the country as suitable reference in any and all philatelic transactions, might it not be that a lot of the members maintain a membership solely for that reason alone. It is certain that the great bulk of the membership takes no active interest in the society or something would be done to make a real society out of it.

The A. P. S. sits in a very remarkable position in American Philatelic Circles. It has age behind it which is always a valuable asset. It has a reputation of a sort along many lines which is good, it has a cash reserve which should be put to use for the benefit of its membership and Philately in general.

There should be a revolution in the A. P. S. Many of the old guard who have had a strangle hold on the organization for years past should be set aside, the society should be reorganized along lines that will make it a militant, active organization and especially an organization that will first interest and create enthusiasm in its own membership after which it would be a simple matter to increase and build up that membership.

Many of the reorganization proposals put forth by Mr. Lybarger in his speech before the convention last year should be adopted. The society should be reorganized on a streamlined basis in such manner that activity in its work-

IMPORTANT TO Cover Collectors

The addition of Chicago as a First Day City of issue for the new Poland stamp puts everyone in a "Mell of a Hess" as we see it. Collectors who have already ordered from dealers should send order at once to the same dealer for the Chicago service on this stamp. It upsets all prices for sets as we have no knowledge that other stamps will come from two cities, therefore this Poland stamp from Chicago must be treated as an orphan and ordered singly for this city only. Place your order with your dealer now, on same price basis as the single from Washington was offered by him.

New York Women Elect Officers

The Women's Philatelic Society of New York City, going into its 11th year, has elected the following new officers:

President: Sophie Buser; Vice President: Emma Kaufman; Treasurer: Helen M. Palmer; Recording Secretary: Ethel G. Armstrong; Corresponding Secretary: Edna R. Gordon.

COCA-COLA GOES TO WAR

The Coca-Cola Company are putting out small packs of Picture Post Cards with army pictures and arranged in a novel manner so that the boys in camp can fill in their names and mail home to friends. Thanks to Walter E. Jarrett of Abilene, Texas for a sample set.

ings can be participated in by members scattered all over the country and this alone would create and build up enthusiasm and interest in the society.

Has Milwaukee a real reason for its desertion of the Society at this critical period or are the boys out there just fed up with the old girl.

Polonus Philatelic Society Can Claim Much Credit For Bringing First Day Stamp Issue To Chicago

Like a bolt from the blue comes the announcement from the Postoffice Department that the coming Polish stamp to be issued first day on June 22, will also be issued from Chicago on that date. This not unexpected announcement will amaze many collectors as well as dealers and has upset the best laid plans of the cover dealers on every front. Here is an orphan that is put on their doorstep at the last minute and of course it must be taken care of.

Without question, every cover dealer will service and handle the Chicago covers. The only thing necessary is that all you collectors

Percy G. Doane To Hold Ninth Green Sale At The Collectors Club In June

The Ninth and we believe the last of the Green sales scheduled for this spring will be held on June 24th, 25th and 26th before the Collectors Club in New York. This sale is to be held by Percy G. Doane. This is a name that is much less frequently seen on auction catalogues today than in years gone by. Mr. Doane occupies a very unique position in New York Philatelic circles. His long years in the business, his keen knowledge of stamps, his wide acquaintance and above all his reputation for integrity and fair dealing has made him a man whom most stamp men in New York and throughout the nation, hold in high respect, and whose consul and advice are valued highly.

Mr. Doane has an unpretentious shop, yet few dealers in New York hold a greater volume of stamps than are piled on his shelves, under his counters and in his safes.

Those who know Mr. Doane, know that any sale under his management will be carried out in the most approved fashion and that his word is one on which they can depend.

This last Green sale for the season features among other things, one of the finest lots of U. S. envelopes that have come into the auction room for a long time as many of the great rarities are in the collection. There is of course a fine lot of both 19th and 20th century regular issues, the Colonies and possessions as well as British North America. The second days sale will feature British Colonies including many of the rare high values and on the third day the balance of the world with 175 lots by countries which will help dealers stock up. Catalogues are free as announced in the advertisement of the sale in this issue.

GOOD PICKING IN FRANCE

Regardless of the extraordinary current demand for stamps of France, the Rialto Stamp Company of Lakewood, N. J., offer this week an exceptional list of these popular issues, all priced singly and also many in sets. Certainly the wise collector will pick this list over in a hurry while the offering is still complete.

This company specializes in Want Lists and items not offered may be found in their stock if your want list is sent.

who have already placed your orders, immediately make additional remittance to your dealer for the single stamp to come from Chicago. We feel certain that all dealers will give you service on this single city at the same price as for a single service from Washington, therefore do not wait for an announcement from your dealer but send your additional order at once.

Unquestionably the Polonus Philatelic Society of Chicago can feel pride in the part they played in securing this first day issue for Chicago. The Society has been active ever since the announcement of the stamp and this final word from Washington is the result of their effort.

Will this two city issue set a precedent that may bring requests and demands that stamps for the other nations be issued in other cities than Washington. A heap of trouble for cover collectors and dealers could be avoided if the Postoffice Department would immediately announce the order in which the other stamps will be issued and approximate dates so that if there is to be a last minute rush and demand from other cities for recognition and first day issue, the matter might be cleared up at once instead of left until a last minute announcement.

Too much of this kind of announcement has cluttered up first day issues in the past and a frank statement from the Department as to intentions on the other ten stamps in this set might help solve that problem now rather than a few days before the stamp is issued.

Let's have a little more co-operation and less secrecy.

Following is the announcement as released at Washington on June 1st.

First-day covers of the postage stamp commemorating Poland's heroic resistance to the Nazis will be available at both Washington, D. C. and Chicago, Ill., on June 22, 1943. Postmaster General Frank C. Walker announced today.

The Chicago region probably contains the greatest percentage of Americans of Polish descent, and for that reason it was decided to have the first-day sale of the new stamp in that city as well as in Washington.

The new stamp is 84/100 x

Famous Kicking Mule Postmark Converted To Popular Patriotic Use

Among all the Patriotic envelopes of the present war, none will probably be more popular or more sought after than that of the famous "Kicking Mule," the envelope that was created as the result of a collectors interest in this well known and much sought for cancellation used on 19th century stamps sixty years ago.

The story of the Kicking Mule Postmark is a long one in itself and we have no intention of trying to print it here but rather to tell of how it was adapted to Patriotic Cover use by Mr. Lee H. Cornell of Wichita, Kansas.

Mr. Cornell has long specialized in this cancellation and to most of us, his wealth of information would be amazing for this mule came from several western points although the best known and most

frequently seen variety is that from Port Townsend, Washington, from which point it was used August 4, 1880, the earliest known date. It was later used at several other cities and it is believed that Neah, Washington also used the mule although definite information in this point is lacking. Later the mule was used at Susanville, Forbestown and Goleta in California. The Mules from these points are known as the Goleta Mule etc. The great interest in and demand for this cancellation has caused it to be forged and some of the forgeries are quite well known and easy of detection, perhaps the best known of these is the well known "pot belly" mule.

One of the latest covers known is one of 1900 in the collection of August Dietz, confederate authority.

It was because of his great interest in, and search for Kicking Mule cancels for his collection that Mr. Cornell had prepared a drawing of this mule and used it on his envelope as a corner card with an imitation of the Goleta Cancellation carrying his address. This interested collectors and when the big interest in Patriotic Covers became apparent Mr. Cornell had a single drawing prepared which showed Adolph Hitler on the receiving end of the mule heels and under which was the inscription "Hepl" Hitler!! a

had his printer print a few of the pictures on some Government Stamped Envelopes which he used for his personal correspondence about town. Imagine his surprise when collectors began clamoring for copies of all these covers. The demand kept growing and the small supply on hand was soon exhausted, yet more inquiries came and as a result Mr. Cornell has developed two new designs which he is now prepared to offer to collectors.

The real collectors of patriotic covers will appreciate these Cornell covers because they lack somewhat that commercial taint that has been behind most covers and it is covers of this particular type that will be the most interesting in the collections of the future.

The fact that Mr. Cornell is now offering these covers to collectors of course puts them in the commercial class yet this was all brought about by a popular demand and we hope that there may be other covers which are sought solely because of their unique design rather than simply because they are another cover.

Here is the third series of Patriotic Envelopes. Here are the designs that the judges pronounced best out of the hundreds of entries from Texas, from California, from Florida, from Maine, from Connecticut, from New York. The judges were Leopold Arnaud, dean of the school of Architecture, Columbia University. Sen. Jas. M. Mead, Major Gen. James A. Ulio the adjutant general U. S. army and H. L. Lindquist publisher of Stamps Magazine and chairman of National Federation of Stamp Clubs. The response to the first series of envelopes was overwhelming. The record was over 40 million sold in less than a year. The sales of this series will soar beyond that. Who uses them? Everybody. The boys in camp, their mothers and girls at home; business men, radio and screen stars, professional people. Use them for every letter you write. Use them for your first day covers for the new series of stamps. People Who Live In Glass Houses . . .

In the May issue of the Precancel Optimist, Mr. Gunesch is courting trouble for both himself and the precancel fraternity as a whole by permitting an editor to make remarks that had best be left unsaid in print. Dr. Hoskins, whom we presume wrote the article, altho like himself, we find no name under it, makes a feeble effort to defend his misguided opinion of the 1 1/2c St. Louis Precancel, imperforate vertically between. We presume that Dr. Hoskins thought up the word "diatribe" so that readers of his column would recognize just what he was writing.

Dr. Hoskins admits he knows little about the stamps in question. What he probably does know best is that he does not hold the corner on them, nor does Mr. Gunesch, else they would be touted liberally. The stamps are unfortunate in that the original finders did almost everything one could think of to wreck their own market and their holdings. They offered the material in such a way that it looked like there were an unlimited supply, when as a matter of fact, best information available tells anyone who wants to learn that the truth is just the opposite. Mr. Hoskins went so far as to state that the stamps were being offered around Chicago at \$3.00 per block. This we consider a questionable statement and we immediately offered to buy all that could be sent us at such a price. We got none and did not expect to get any, altho the money is ready if the Dr. will produce.

To belittle that which one does not have is a trick as old as stamp dealing or any other kind of dealing.

We sometimes wonder if the good Doctor knows what he has been writing about for he quotes the paper in which the item about which he has been talking as being in Linn's Weekly Stamp Review. Or is this just another way of heaping innuendo on a publisher to keep collectors who want to know, from finding out the real source of facts.

Most recent reports are that Bureau Precancels imperf between have shown up in the 1/2c Lansing, Mich., and the Glendale 1c is also reported found. Collectors may not find this information in the column by Dr. Hoskins because his boss may have none to sell.

Anyone with sound common sense knows that there is a gamble in the purchase of any stamp of this nature for fate may turn up a larger supply at a later date in the future, but the chances are much in favor of the buyer as anyone should know.

In the case of the St. Louis variety, it is entirely probable that this stamp will be offered cheaper within a short time. The possibility lies in the fact that the stamps have not sold readily as they should. This is probably due to the method in which they were first offered. It is entirely probable that the finder will get cold feet and choose to unload and get his money out with a much less profit than he fancied in the first place. If this happens, we will then see a scramble for the stamps by the wise collectors, and after a short period, the rise will start for the supply is definitely small and could not possibly satisfy everyone who wants a copy.

Mr. Hoskins' worst offense is an effort by a statement on his part to induce Government officials to investigate the source of these stamps. Mr. Hoskins "foolishly" says "Nor do we possess sufficient mathematical knowledge of the laws of chance and probability to figure out just exactly how many of these stamps found their way out of the St. Louis postoffice and into the hands of dealers. THE AUTHORITIES IN WASHINGTON MAY HAVE A DEEPER INTEREST IN THAT INFORMATION THAN WE HAVE RIGHT NOW."

Here you are Precancel collectors, the last addled remark of a brain, that groping for something hot to say when other words failed, brings up a question that no sane collector would ever think of speaking of in print.

On the second page following the Doctors remarks we note a full two page advertisement in which a dealer offers what he calls a Show Piece. It happens to be a full sheet of 100 Kingsport Bureaus. You all know that was one of the elusive ones, yet they were plentiful for all who wanted them and you and I both know that sheets of this stamp with full margins and plate numbers were not used to mail packages. If Dr. Hoskins wants Washington Officials to investigate Bureau Precancel Collecting activities, most collectors would have to go without their weekly bath, for bath tubs would disappear from their homes as evidence that they were not among the guilty. Now much of the Bureau stuff offered by dealers is bathtubbed and if Washington Officials do not know the meaning of that term, they would have but little trouble in finding out.

Our own opinion however is that Washington Officials should not and probably do not care about this practice. What the Officials are interested in is that precancels are sold only to permit holders and are used only by permit holders. Why they should care a tinkers darn whether the buyer of a batch of precancels eats, them, papers his wall with them or sells them to stamp collectors is probably one of the least of their worries, but at the same time, it is darn poor business for a publisher of a Precancel publication to monkey with a sleeping dog.

CHICAGO GETS FIRST DAY OF POLISH STAMP

Continued From Page 1

1-44/100 in dimensions (size of the present special delivery stamp) and is arranged horizontally and issued in sheets of 50.

The central subject, which is surface printed, is a reproduction of Poland's flag in natural colors, red and white. In the main frame of the stamp, which is steel engraved, there is depicted on the left the phoenix, a mythological bird symbolizing the renewal of life; and on the right, in a corresponding position, it shown a kneeling female figure portraying the breaking of the shackles of oppression and enforced servitude. Both the phoenix and the kneeling figure are supported by pedestals. In each pedestal appears the denomination numeral "5" in white. The pedestals rest on a panel, which appears the word "Cents" in orthodox white-faced Roman. Immediately back of the wording the panel is of a darker shade fading out at each end. Across the top of the stamp appear the words, "United States Postage", in white-faced Gothic, within a ruled panel with ornamental scroll ends. The entire frame of the main features is set in a purple background, fading in rays toward a light center in which appears the flag. Underneath the flag, in red regular Gothic lettering, appears the country's name, "Poland."

This is the first of a series of eleven new postage stamps, to be issued at intervals, commemorating the continuing resistance to the Axis by the peoples of the occupied countries of Europe. The other countries to be honored are Czechoslovakia, Norway, Luxembourg, Netherlands, Belgium, France, Greece, Yugoslavia, Albania and Austria.

The Bureau of Engraving and Printing, Treasury Department, has contracted with the American Bank Note Company, New York, N. Y., for the printing of these stamps to take advantage of their special multicolor printing equipment.

Collectors desiring first-day cancellations of the stamp on June 22, 1943, may send not more than ten self addressed envelopes to the Postmaster, Washington 13, D. C., and to the Postmaster, Chicago, E. Ill. with a cash or postal money order remittance to cover the cost of the stamps to be affixed. The envelopes should be of ordinary letter size, each one addressed and containing an enclosure of medium weight, with the flap either sealed or turned in.

Collectors also may obtain stamps of selected quality on mail orders sent to the Philatelic Agency, Post Office Department, Washington, D. C., The Agency does not service covers.

The stamp will be on sale throughout the country the following day, or as soon afterward as distribution will permit.

B. D. E. BOAT CACHED

Mr. H. E. Hyldak of Bremerton, Washington, sends a cacheted cover for the launching of "B. D. E. No. 37." B. D. E. stands for British Destroyer Escort and it is said that this boat is the United Nations answer to the U-Boat menace. This launching took place on May 20th at Puget Sound Navy Yard.

Mr. Hyldak says, "This type of vessel of which several have been built elsewhere and are in service, represents a 'compromise' between Great Britain's corvettes and a destroyers. The vessel is especially designed by the U. S. Navy and is to release destroyers from convoy duty.

Harmer, Rooke Sale Of Storrow Collection Sets More High Price Records

The Harmer, Rooke Sale of the Storrow Collection from the Colonel Green Estate, the eighth sale of this property held on May 26, 27, 28, consisted of 819 lots, wholly of U. S. and Confederate issues. The illustrated catalogue is ample evidence of the remarkably fine stamps that are offered in the sale.

The total for the three days was \$61,344.10. One of the high points of the sale was the continued heavy buying of the Y. Souren Company who purchased more than one third of the total amount of the sale. In the recent West Sale Mr. Souren was the heaviest buyer and this should indicate his firm belief in the future of fine U. S. stamps.

Indicative of the high prices paid we mention a few of the pieces bought by Mr. Souren, among which was a superb copy of the 20c St. Louis on cover at \$2600.00, a 5c pelure paper on cover and tied with town postmark, exceptionally rare at \$2000. A superb 1869, 15c invert at \$1500 and a 24c airmail invert at \$3300. Mr. Souren states that this latter stamp is probably the finest copy in existence since most of the stamps were not well sheeted and only a few in the sheet could be called superb. The catalogue illustration of this stamp clearly shows that there was nothing more that could be asked of it for condition. Prices were strong throughout the sale and many new highs were reached. Where condition was first class there was no consideration of catalog value. Mr. Souren paid \$56 for a 1c Type IV, 1851, No. 32d. The stamp catalogues \$5.00. This copy was cut with edges of all four surrounding stamps showing and is probably one copy that will never be duplicated.

What About Denmark In New Stamp Series?

A reader inquires as to why Denmark is not included in the list of overrun nations for which special stamps are to be issued by the United States.

The answer is simple in that Denmark did not resist Axis occupation. There was probably a token resistance, but nothing in the way of actual resistance and it is only countries which made actual resistance that are being thus honored.

AIR MAIL COVERS

MANUEL S. GOLDSTICKER, JR. (Dept. Ed.)
43 Mt. Prospect Avenue Newark, N. J.

FLASH—More newly approved airmail stops:

AM-11 Stockton, Calif., between San Francisco and Fresno.

AM-11 Modesto, Calif., between San Francisco and Fresno.

AM-11 Merced, Calif., between San Francisco and Fresno.

AM-11 Visalia, Calif., between Fresno and Bakersfield.

AM-13 San Bernardino, Calif., between Los Angeles and San Diego.

AM-37 Los Angeles, Calif., between Las Vegas (Nevada) and Fresno (Cal.).

AM-37 Oakland, Calif., between Fresno and San Francisco.

This is the first time that Stockton, Modesto, Merced, Visalia, and San Bernardino have had direct airmail service, so first flight covers to and from these points should be listed in the catalogue. There is still some discussion about Oakland and Los Angeles, since they have already received airmail service by T. W. A. via the old route CAM-34. However, it wouldn't do any harm to send out covers in case they are listed. However, inquire of your local postoffice first before mailing out covers to Los Angeles and Oakland because the first flights from these points via AM-37 may have already occurred.

For the benefit of those who may have overlooked last week's column, AM-15 will be extended north of Amarillo, Texas, via Pueblo, Colo.; Colorado Springs, Colo.; to Denver, Colo. Also, AM-24 will be extended Southeast of Shreveport, La., via Alexandria, La.; Baton Rouge, La.; to New Orleans. The extension of AM-24 will be listed in the catalogue, while the extension of AM-15 is questionable due to the extension paralleling the old CAM-12 which was discontinued in 1934.

An airport dedication at Morristown, N. J., scheduled for May 31st has been postponed, until July 4th. While there has been no mention of a cachet, covers sent to the "Airport Dedication Committee Morristown, N. J." will probably be held for the event.

A new Naval Air Station at Brunswick, Maine, and three auxiliary stations at Lewiston-Auburn, Sanford, and Rockland (all in Maine) were commissioned on April 15, 1943 before an audience of many high Naval officials. Up-to-now, there have been no covers of the event found. If anyone has any covers of this event, or know of any, will they please let me know.

The menu for today's festivities includes several savory dishes of the unusual, and features the findings of several new chefs, as far as this famous hostelry is concerned.

Our entree is composed of ingredients furnished by Jesse L. Bogard, a regular contributor to this column. The latest shipment from Mr. Bogard comprises the following: Two very nice gutter snipes on the 1½c Martha Washington and the 3c "Win the War" issue. Another block of the "Win the War" stamp shows what the finder judged to be plate cracks, but such was not the case. They are scratches or sharp cuts made by some foreign matter after the stamps had been printed.

Our next course is served up by George B. Sloane, who is reputed to know a little about matters philatelic. He presents a strip of the 2c carmine, Presidential sidewise coil on double paper. This variety for some unknown reason is very scarce on a coil stamp. Besides the double paper which shows on three stamps, both ends are fastened with scotch tape, one on the face of the stamps, and the other on the back of the coil strip. However, Mr. Sloane claims that the Bureau of Printing is indifferent as to whether or not these items are discovered and destroyed before distribution, as long as the stamp presents a satisfactory appearance for postal service. I do not concur with this deduction. In my own collection I have several examples of double paper pieces which, having been spotted by postal inspectors, were stamped with their names, and earmarked for destruction. These varieties even after segregation have a penchant for walking off and appearing in philatelic channels at a substantial increase in price.

At this point it is merely fitting to complete our repast with a new wrinkle, a contribution of Anton A. Wild, who practices philatelic legerdemain from Newtonville, Mass. He serves first a single copy of the 1c Green 1917 Issue Scott's #498, which shows two halves of this stamp with the space between the stamps imperforate. This odd-

Observations.

That there are a few collectors going after the DATED overprints. Just how they arrange their collections and what they seek in the DATEDS etc. I cannot as yet find out. From meager information I know that there were some collectors that saved only those DATEDS that were integral handstamps. An INTEGRAL handstamp has the date, the lines of bars and town name as all one stamp. Sometimes the device is arranged so that the Date line can be changed I am told but even this I have not verified. Other collectors I know of saved only the DATEDS that were printed. The NEAs of Cleveland and the MWs of Albany are the outstanding examples, but Portsmouth O, Saint Paul, Portland, Ore. are other places that used some system to print their DATING legend on the precancels. In time these will segregate themselves and those who are smart enough now to save the right ones will have the choicest items.

—Observations of dealers offer—

dity results from wild perforations which run through the vertical center of the stamps instead of between the stamps. For desert, he adds a very pretty crease before printing on the 15c Orange, 1879 Issue, Scott's #189. The white imprinted portion is about one-quarter inch wide and extends horizontally across the top of this stamp. When the crease is ironed out it results in a stamp which appears and is much longer than is normal for this issue.

At this point the management of this beanery disclaims any liability for gastronomic ailments contracted in an attempt to digest that which appears in this column.

ings of the late issues of bureau prints show that preponderance of the items are sheet stamps. Although it is true that actually most of the bureaus are sheet stamps yet the ratio is not that great. The reason dealers do not care to go in big for coils is the fact that their chances of unsaleable copies is so much greater that they don't feel it worth the risk. As I have pointed out before a man can scan a sheet or several sheets for that matter in a few seconds and tell if it is good enough to use but to unwind a coil and inspect it is another matter. Generally the price averages about a cent a stamp higher for coils than sheet stamps and rightly so. There is no fun in peddling out the good copies from a coil to get your cost back and then have the bum copies left to try to make a profit with them.

The Scudder Collection Of China To Be Offered In June Harmer Auction

On June 22nd, H. R. Harmer, Inc., of New York will offer the well known Scudder collection of China. This should attract many bidders since China, always a rather popular country has taken

on an added interest in recent years. This sale of 347 lots is exclusively of China stamps and the collection is one of the best that has come on the market in many years.

Other June sales of interest is the 267th Ohlman sale of a nice lot of both U. S. and foreign issues, including many lots that should attract dealers looking for stock.

Edson J. Fifield will sell the collection of E. Parmly, Jr. on June 18, 19. This is of over 800 lots of U. S. and Possessions exclusively.

On June 19th the Cosmos Stamp Company hold their 53rd sale of U. S. and foreign while on June 22 and 23, Harmer, Rooke & Co., offer a choice collection of U. S. and Confederates and we note a number of large lots of U. S. that should attract dealers who want stock.

LINGUIST AND PHILATELIST

Rev. Ramon Santamaria N., Jocoaitique, Morazon, El Salvador, is an enthusiastic collector. A member of the Pacific Stamp Exchange Club, he likes to trade with philatelists in other countries. He corresponds in seven different languages.

Stamp Club Programs Will Be Based On The Eleven New Stamps

Now that the United States has announced the issuance of a series of eleven postage stamps, "Honoring the Axis Occupied Countries," The California Collectors Club, Whitcomb Hotel, San Francisco, at its regular Friday weekly meeting preceding the first day of issue of each stamp will have a special program for the country honored. The program calls for interesting facts, historical, as well as philatelic, for each country, and a display of stamps for that country by the members of the club.

The first event, will be Friday, June 18, 1943, which will be devoted to Poland, the first country to be honored by this series, which stamp will have first day sale at Washington, D. C., June 22nd.

The California Collectors Club meets every Friday, at 8 p. m. at the Whitcomb Hotel, San Francisco, and the public is invited to visit any meeting of the "Friendly Club," where a welcome awaits all interested in stamp collecting.

New Prize Winning Set Gimbel Envelopes Are Offered Linn's Readers

They came quicker than we expected, that new set of twelve handsome Prize Winner Designs of the popular Gimbel Patriotic Envelopes.

Last week we printed pictures

of several of these new designs and predicted their offer to our readers soon, but we did not think this offer would follow so soon as this.

Now, you can buy your new set as announced on page three of this issue. This great announcement will bring hundreds of orders for these new envelopes which will add a dozen new beauties to the already lengthy line of Gimbel Envelopes.

These envelopes will form one of the brightest spots in any collection of Patriotic covers of this war and those of you who have not yet filled up your first two sets should get busy at once. Both previous printings are now obsolete and prices on these covers will begin to stiffen.

DO YOU LIKE TO GAMBLE?
Take a chance and send us a dollar. We will send you a parcel of foreign stamps, discontinued approval sheets, partially filled albums, or anything that we may have available when your remittance is received. Satisfaction guaranteed or your money refunded. This gives us the opportunity to liquidate items that accumulate and you get a nice lot of stamps at a fraction of regular price. Gambler's parcel, price \$1.00. Approvals incl. CATHAM STAMP CO. Springfield, 80, Mass

PORTO RICO AIRMAILS

To hasten mail delivery to the Virgin Islands and other neighboring points, a beautiful set of two triangle airmail stamps (Sanabria #398-399) was issued with approval of postal authorities. Your collection isn't complete without this unusual set and to approval applicants it is only 10c. To others, it is 18c per set.

Printed in miniature sheets of six stamps, we offer both values, six sets in two miniature sheets, for just 73c.

SPECIAL: A grand packet of 100-different airmail stamps of world-wide nature, only \$1.00.

Your World War II Collection MUST have copies of

V-MAIL NEWSPAPERS

My article in the May 13, 1943 issue of LINN'S, page 3, gives full details.

V-Mail Editions of the DAYTON-JOURNAL-HERALD, now obsolete, were 85% sent overseas. Less than 50 complete sets believed available.

Complete your set, at prices of individual copies quoted below:

- #1\$6.50
- #225
- #315
- #410
- FRESH, COMPLETE SET.....\$7.00

(Postage extra on orders less than \$1.00)

Supply of complete sets limited and subject to prior sale. Remit by money order or War Stamps or add 10 cents to checks. Orders for #2, 3 and 4, are limited to three copies per issue. It has required much time, effort and money to search out this material and the above prices are, in my opinion, reasonable and fair for this unusual and obsolete World War II "Must" material.

SELL YOUR V-MAILS

WANTED: Will buy or exchange V-Mail Newspapers, original or reduced size. Submit with price on 3 day approval. Also want illustrated V-Mail forms. Keep this ad for future reference. I am doing research on V-Mail and will be grateful for new items with complete data. J. D. S.

JAMAICA—The two highest values of the 1938 postage series, 5 and 10Sh., were issued on a War printing. Colors are slightly different. They were issued in April and a new plate was used.

—Stolow

MAURITIUS—The complete King George VI portrait series, Scotts A46, has now been reissued on new War time paper and with a distinctly new head die. The eyebrows and mouth corners shading lines are heavier, and appear to give the King an older appearance. Colors are the same as the 1938 series. The 2c to 1R are on thin white paper with white gum. The 2.50R to 10R are on white surfaced paper with white gum.

Complaint No. 1

Fred Jewett, PCEC #90, writes that in several instances he has been unable to read the name and return address of PCEC members sending him covers. Therefore he doesn't know to whom a cover should be sent in return.

A good suggestion is to print your name and address. Some members use rubber stamps, others use gummed stickers. However, care should be taken if you desire to get good results from exchanging with members.
